## UltraRAD Expands to Illinois

### Rik Kantor brings over 20 years industry experience to the team

Largo, FL – February 14, 2005: UltraRAD Corporation is proud to announce expansion by opening an additional sales office in Ingleside, IL. Since the early 1980's, Mr. Richard Kantor, has been contributing unparalleled success to the medical imaging market and proudly brings his talents to the UltraRAD team.

"I am proud to be part of the UltraRAD team focused on the continued growth and development of innovative solutions that meet the full range of clinical needs in a cost-effective fashion," says Richard. UltraRAD Corporation is an excellent company with a great line-up of digital imaging products and solutions."

Among Richard's many successes in sales, he brings to UltraRAD much experience in Radiology and Orthopedic Image Management and PACS. Richard comes to UltraRAD from a position as General Manager of a leading innovator in PACS solutions for hospitals, imaging centers and orthopedic practices. Richard has seen success over the years with companies such as IMCO Technologies, McKesson Corporation, Sony Electronics, Elscient, CD&A and Siemens Medical Systems.

"UltraRAD Corporation presents a perfect opportunity for personal and professional achievement," says Richard.

About UltraRAD Corporation: UltraRAD, a Florida based company, provides the ultimate digital solution for any hospital, imaging center, outpatient clinic and physician's office. No site is too small or too large for UltraPACS! Our solution includes a fully integrated robust Scheduling and RIS package, Document Scanning, Image Acquisition, Viewing, Distribution, Management and Auditing of all patient data throughout any practice as well as remote facilities or doctor's homes. From a single, stand-alone Radiologist workstation, to a complete enterprise-wide solution, UltraRAD provides the ultimate products and services, on-site at your facility or completely managed off-site through ours. When you choose UltraRAD, you choose to take the headache out of finding and managing a PACS/RIS solution. Every UltraPACS implementation is scalable, reliable, flexible and secure!
