# EXTERNAL DATA MANAGEMENT

Automated External Data Management  
Workflow Solution for Healthcare Facilities

## Offering Comprehensive External Data Solutions

At UltraRAD, we understand the intricate challenges associated with managing external data. In response, we present our all-encompassing External Data Management solution, meticulously crafted to streamline the ingestion and reconciliation processes of orders, results, and patient information from inception to delivery. Eliminating the need for cumbersome VPNs, our External Data Management platform seamlessly integrates with our core solutions and professional services, providing a tailored solution that aligns with the unique business requirements of your facility. By automating the external data management workflow, our solution liberates your time and resources, empowering you to prioritize the delivery of superior patient care.
